

CAPSL's Commitment to Excellence

Global Standards Commitment

We are dedicated to upholding the highest international standards through rigorous quality control processes. Our adherence to ISO 9001:2015 for Quality Management, ISO 14001:2015 for Environmental Management, and ISO 45001:2018 for Occupational Health and Safety reflects our continuous commitment to delivering exceptional safety and efficiency in every service we offer.

Long-Term Support and Maintenance

Our commitment to your success does not end with the sale of equipment. CAPSL offers comprehensive support services, including routine maintenance, repairs, and the supply of genuine OEM spare parts. We are dedicated to keeping your gas compression systems operating at peak performance.

Invest in Reliability with CAPSL

Compression and Power Systems Limited (CAPSL) is a leading provider of comprehensive energy solutions, specializing in gas compression, gas processing plants, power generation, pumps, heat exchangers, and genuine OEM spare parts. We offer a full spectrum of services, including Engineering Procurement and Construction (EPC), Installation and Commissioning, Operations and

Maintenance (O&M), and Maintenance /Repair /Overhaul (MRO) services. Our commitment to quality, innovation, and reliability has established us as a trusted partner in the oil and gas industry.

PUMP SOLUTIONS

High-Performance Pumps for the Oil and Gas Industry

At Compression and Power Systems Limited (CAPSL), we specialize in delivering high-performance pump solutions tailored to the specific demands of the oil and gas industry. Our pump solutions are engineered to provide reliable and efficient performance across a range of applications, ensuring that your operations run smoothly and efficiently, even in the most challenging environments.

Why Choose CAPSL for Pump Solutions?

Industry Expertise and Experience

CAPSL brings decades of experience in the oil and gas sector, providing pump solutions that meet the rigorous demands of the sector. Our team understands the critical role that pumps play in your operations, and we deliver solutions that maximize uptime and productivity.

Advanced Pump Technology

Our pump solutions are supported by the latest technology to ensure superior

performance, durability, and efficiency. CAPSL offers a full range of services to keep your pumps operating at peak performance, including installation, maintenance, and repair. Our comprehensive approach ensures that your pumps remain reliable and efficient, even under the most demanding conditions.

Comprehensive Service Offerings

CAPSL offers a full range of services to support your pump solutions, including equipment supply, installation, operation, and maintenance. Our services ensure that your pumps are optimized for peak performance.

Our Pump Solution Capabilities

Our pump solutions are engineered to meet diverse and demanding requirements across various industries.

We specialize in:

- **Customized Design and Selection:** Tailoring pump systems to fit specific operational needs, whether for high-pressure, high-volume, or specialized applications.
- **Installation and Commissioning:** Ensuring seamless integration and optimal setup of pump systems for immediate, trouble-free operation.
- **Routine Maintenance:** Providing scheduled maintenance to prevent issues and extend the lifespan of your pump systems, including inspection, lubrication, and parts replacement.
- **Emergency Repair Services:** Offering rapid response and expert repairs to minimize downtime and restore functionality quickly in critical situations.
- **System Upgrades and Optimization:** Implementing upgrades and modifications to enhance pump performance, efficiency, and adaptability to evolving operational demands. By addressing these key areas, we ensure that your pump systems operate reliably and efficiently, enhancing overall productivity and performance.
- **Custom Pump Design and Sizing**
Every operation has unique requirements, and CAPSL offers custom design and sizing of pumps to ensure that they meet your specific needs. Irrespective of the application, our pump solutions are engineered to deliver optimal performance and efficiency.
